Subject: 100 consecutive nts search for Serial No. 09/919,891

Importance: High

Can you perform the following search for Serial No. 09/919,891, where a claim is directed toward a polynucleotide consisting of at least 100 consecutive nucleotides of SEQ ID NO: 1.

SEQ ID NO: 1 contains 4301 nucleotides.

1. Please search for 100-4301 consecutive nucleotides of SEQ ID NO: 1 against the commercial, PGPub, Issued, and Pending nucleotide databases; such that there are no unmatched nucleotides on either side of any matching hit.

Please save on computer disks and save the interference results on a separate disk.

Thank you.
